MACHINES TO IMPROVE YOUR BUSINESS

GRIZZLY

**D**ie Grizzly Flockenmaschine ist entwickelt worden, um aus Schaum- und Latexabfällen Flocken für Kissenfüllungen herzustellen.

Die Flocken können in Containern oder Säcken gesammelt oder direkt ins Silo transportiert werden.

Die Flockengröße kann in Abhängigkeit vom Lochdurchmesser des Auslassbleches individuell bestimmt werden.

Die Konstruktion der Anlagenspeisung gewährleistet ein Maximum an Arbeitssicherheit.

**G**rizzly is an electric shredding machine, designed to shred waste polyurethane foam and foam rubber, permitting both savings (recycling of materials used for filling) and reduction in waste to dispose of.

The shredded material is expelled from the front outlet and can be collected in containers or transported, using an appropriate conveyor to storage silo. The size of the chips of shredded material can be adjusted using the outlet grates, available in different sizes and also made on request. The machine is available with a 220 V. 3HP. monophase motor or with powerful 220/380 V. three-phase motors with 5.5 HP. or 10 HP. able to meet all requirements. The outlet spout, the height of the conical conveyor and the revolving feed blade, guarantee that the machines operates in conditions of maximum safety.

#### TECHNISCHE EIGENSCHAFTEN:

·HÖHE: 180 cm  
·TIEFE: 100 cm  
·BREITE: 75 cm  
·GEWICHT: Kg . 115  
·ANTRIEB: Elektrisch  
·MOTOR: 1 Phase 220 V. 3 HP  
3 Phasen 220/380 V 5,5 HP  
3 Phasen 220/380 V. 10 HP

·SICHERHEITSAUSSTATTUNG: Automatische Überfüllabschaltung, Minimum Spannungswalze, Not Aus

·VERFÜGBARE FLOCKENGRÖSSEN: 10,15,20,25 mm  
·PRODUKTIONSKAPAZITÄT: 60 KG/H (5.5 HP.), 90KG/H (10 HP) (DURCHSCHNITTSWERTE)

#### TECHNICAL FEATURES:

·HEIGHT: Cm. 180  
·DEPTH: Cm. 100  
·WIDTH: Cm. 75  
·WEIGHT: Kg . 115  
·WORKING: ELECTRIC  
·MOTORS: MONOPHASE 220 V. 3 HP  
THREE-PHASE 220/380 V 5,5 HP  
THREE-PHASE 220/380 V. 10 HP  
·SAFETY EQUIPMENTS: AUTOMATIC OVERLOAD CUTOUT  
MINIMUM TENSION TRIP COIL, EMERGENCY STOP BUTTON .  
·GRATES AVAILABLE: 10,1. 5,20,25 MM.  
·PRODUCTION: 60 KG/H (5.5 HP.), 90KG/H (10 HP) (APPROXIMATE DATA)
